ALLEGRO 111-160
EVOLUTO 111-160
OIL-INJECTED SCREW
COMPRESSORS

Your production system is like a human body. Compressed air is the lifeblood that keeps everything moving. And the compressor is the heart that gets the air to where it is needed. The ALUP Largo, Allegro and Evoluto 110-160 kW never miss a beat, producing the quality air that keeps your production going with maximum efficiency.

OPTIMIZED TOTAL COST OF OWNERSHIP

- Lower energy costs thanks to in-house designed, high-efficiency screw element.
- Up to 45% energy savings with the Evoluto's IE4 iPM motor.
- The Evoluto comes with integrated direct drive transmission for minimal losses.
- Monitor and optimize your compressor remotely with ICONS.

INCREASED UPTIME

- Reliable operation, even when your compressor room reaches 46°C.
- The inverter's electrical cubicle can withstand up to 55°C.
- The IP66-enclosed drive train ensures dependable performance in dusty and humid conditions.
- Advanced Airlogic²T touchscreen controller maximizes performance and efficiency.
- Service packages can be customized to your needs and preferences.

A CHOICE OF 3 MODELS

LARGO FIXED-SPEED

- Up to +5% Free Air Delivery compared to the previous fixed-speed model.
- Reliable performance, even in tough conditions.
- Save up to €55,000 in Total Cost of Ownership (versus market average).*

+ TCO SAVINGS

ALLEGRO VARIABLE SPEED

PERFORMANCE

- +5% Free Air Delivery compared to the previous VSD model.
- Energy savings of up to 30%.
- Improved Specific Energy Requirement.
- Save up to €60,000 in Total Cost of Ownership (versus fixed-speed).*

+ TCO SAVINGS

EVOLUTO iPM

PERFORMANCE

SERVICEABILITY

LIFETIME

- +10% Free Air Delivery compared to the previous VSD model.
- Energy savings of up to 45%.
- iPM motor equals IE4 standards.
- Save up to €80,000 in Total Cost of Ownership (versus fixed-speed).*

* Ask us to calculate your Total Cost of Ownership and how much you can save!

EXPECT THE BEST

iPM FOR MAJOR ENERGY SAVINGS

Generating compressed air requires a lot of energy. In fact, energy takes up more than 70% of the cost of owning and operating a compressor. ALUP's iPM technology was developed to give you significant energy savings and contribute to reduce production impact.

While traditional compressors only have one speed (100% on), iPM compressors adjust their motor speed to follow the fluctuating air demand that most production environments have. As a result, the Evoluto delivers up to 45% energy savings.

LOWEST TOTAL COST OF OWNERSHIP

PRODUCTION WITH LOWER EMISSIONS

The Evoluto 111-160's superior energy efficiency not only contributes to your bottom line, it also supports your transition to a production process with reduced environmental impact. Compared to older fixed-speed models, the iPM compressor lowers CO₂ emissions by 10% to significantly reduce your carbon footprint.

EControl6

ENHANCE YOUR AIR SYSTEM PERFORMANCE WITH THE ECONTROL6

Are you operating multiple compressors? Ensure the lowest Total Cost of Ownership and synchronize your machines with the EControl6 central controller solution:

- Generate energy savings by narrowing the operating pressure band.
- Save on maintenance costs and equalize the running hours of your compressors.
- Monitor and control all compressors from one single touchscreen display.
- Optimize your compressors' performance by operating different control schemes.
- Control compressors of all types and brands.

TIP: Combine the iPM Evoluto with a VSD refrigerant dryer for maximum energy savings.

ALUP stands ready to meet all of your compressed air needs: From the ① compressor itself, to ② air dryers and ③ line filters, ④ oil-water separators, ⑤ air receiver buffer storage, ⑥ our own easy-to-install AIRnet piping system, ⑦ and a central controller to manage the entire system.

ICONS

INCREASED UPTIME, POWERED BY ICONS

With the Intelligent CONnectivity System (ICONS), you get data and insights from your machines delivered to your computer, tablet or smartphone.

- Increase the reliability of your machine by identifying problems before they become a threat to the continuity of your production.
- Analyze and optimize your energy consumption and CO₂ emissions.
- Receive high-quality energy reports ensuring the ISO50001 compliance of your site.

WARRANTY SERVICE PACKAGE

With a Warranty Service Package, all your maintenance needs are fully covered for up to 5 years. We take care of all routine and non-routine services, so you can focus 100% on your core business.

Enjoy **full warranty coverage** up to 5 years including expert on-time service or repairs, preventive maintenance, original parts and periodic upgrades.

With a **fixed Total Cost of Ownership**, you have complete control over your maintenance budget.

We protect your investment by using **high-quality original parts** that are specifically designed for your compressed air system and guarantee higher **energy efficiency** and a longer lifetime of your installation.

Service packages can be customized and tailored according to your needs. Your local authorized service provider will be happy to provide you with more information.

UNDER THE HOOD OF THE LARGO, ALLEGRO AND EVOLUTO

IN-HOUSE DESIGNED IE4 SUPER PREMIUM EFFICIENCY INTERIOR PERMANENT MAGNET (IPM) MOTOR: Maintenance free; includes innovative oil-cooling technology for optimal performance in up to 46°C.

INVERTER: Electrical cubicle can withstand up to 55°C.

ALL-NEW COMPRESSION ELEMENT: Gives you improved Free Air Delivery and Specific Energy Requirement.

DRIVE TRAIN: IP66-rated for complete protection from dust and moisture.

NEW UNLOADER & INLET VALVE: Optimizes inlet flow to the screw element and offers a 20% reduction in service time.

A RANGE OF OPTIONS

- INTEGRATED ENERGY RECOVERY
- ELECTRONIC WATER DRAIN
- 8000-HOUR PREMIUM SYNTHETIC OIL
- HEAVY DUTY PRE-FILTRATION
- FOOD-GRADE OIL
- WATER-COOLED VERSION
- FREEZE PROTECTION

CONNECTED 24/7

The Airlogic²T controller features a large 4.3" color touchscreen display with 30+ languages, full control and system insights at your fingertips:

- Warning indications
- Service schedule indication
- Online visualization of running conditions

MAXIMIZE YOUR ENERGY SAVINGS

When you take a comprehensive look at your compressed air system, opportunities for energy savings surface. Among these options, energy recovery will make the biggest impact.

When air is compressed, heat is formed. This excess heat is then dissipated to ensure that the compressor does not overheat and that the compressed air is cool enough when it reaches its destination. However, this heat can be captured with energy recovery technology and used for applications such as water or space heating, industrial cleaning and sanitary facilities.

As up to 75% of compression heat can be recovered, an energy recovery system will help you save big on energy and cut costs.

**HEAT RECOVERY IS THE BEST WAY
TO REDUCE YOUR ENERGY COSTS.**

ALUP'S HERITAGE

Founded in Germany in 1923, ALUP derives its name from the automotive products that were manufactured in the mechanical workshop in Köngen where the company came into existence: Auto-Luft-Pumpen. ALUP developed its first piston compressor just two years later. In 1980, rotary screw compressors were added to its product range.

The experience and expertise the company gained each year, coupled with a spirit of innovation, has led to today's high-quality product offer. The name ALUP Kompressoren has become synonymous with innovative technology blended with a strong sense of tradition. To this day, ALUP Kompressoren is operating out of the heart of Baden-Württemberg, where it all began nearly a century ago.

DRIVEN BY TECHNOLOGY, DESIGNED BY EXPERIENCE

Discover what happens when passion for technology meets hands-on industrial experience: Designs that are easier to install and maintain, allowing you to focus on your job. Our extensive product range features the right machine for you – including the options that meet your performance requirements perfectly. High energy efficiency ensures return on investment and reduces your carbon footprint. And, because customer proximity is one of our hallmarks, you will always be one step ahead when your needs change.

Care

Care is what service is all about: professional service by knowledgeable people, using high-quality original parts.

Trust

Trust is earned by delivering on our promises of reliable, uninterrupted performance and long equipment lifetime.

Efficiency

Equipment efficiency is ensured by regular maintenance. Efficiency of the service organization is how Original Parts and Service make the difference.
